1. Introduction

1.1 Overview

Security Communication RootCA Subordinate CA Certificate Policy (hereinafter, "this CP") is a document that defines operational policies for the subordinate CA certificates (hereinafter, "Certificates") issued by Security Communication RootCA1, Security Communication RootCA2, Security Communication RootCA3 as well as Security Communication ECC RootCA1 (hereinafter collectively, "the CAs") that are all operated by SECOM Trust Systems Co., Ltd. (hereinafter, "SECOM"), by specifying the purpose of use, the scope of application and the user procedures for the Certificates. Various procedures regarding the operation and maintenance of the CAs are stipulated in the Security Communication RootCA Certification Practice Statement (hereinafter, "CPS").

SECOM provides the certification services as the CAs, including the CA key administration as well as issuance/revocation of Certificates (hereinafter, "the Services"). The Certificates issued by the CAs prove and certify the unique correspondence between the subjects of the issuance and their public keys.

The CAs conform to the CA/Browser Forum provisions disclosed at <https://www.cabforum.org/>.

Any provisions in this CP inconsistent with the CPS shall prevail and any provisions in a separate agreement or the like between the subscribers and SECOM inconsistent with this CP or the CPS shall prevail.

This CP shall be revised as necessary in order to reflect any technical or service developments or improvements pertaining to the CA operations.

This CPS conforms to the RFC3647 "Internet X.509 Public Key Infrastructure Certificate Policy and Certification Practices Framework" advocated by the IETF as a CA practice framework.
